SUMMARY

To secure a position as a full-stack software engineer, where I can leverage my comprehensive programming expertise, dedication to innovation, and collaborative approach to develop scalable, high-performance software solutions that drive operational efficiency and deliver exceptional user experiences.

WORK EXPERIENCE

Full Stack Developer, ID Logix, Johar Town Lahore

Sep 2023 - Present

- Expertise in JAVA ,PostgreSQL, React.js, Bootstrap, Redux, and Material UI to create responsive, scalable web applications with reusable components.
- Integration of Google Map to get Nearby Location.
- Extensive experience customizing the open-source iDempiere ERP for industries such as e-commerce, textiles, and real estate, using Eclipse and PostgreSQL.
- Proficient in Java-based processes, callouts, model validation, post-SQL processing, and API integration.
- Managed application state, data integration, and version control with Git. Collaborated on debugging, troubleshooting, and enhancing code efficiency.

Internship , Premium Ebizols Digital, Bahria Town Lahore

Aug 2022 – Sep 2022

- Created and maintained reusable components in React.js to ensure efficient and consistent design.
- Ensured web applications were responsive and optimized for various devices and screen sizes.
- Coordinated testing and validation, ensuring compliance with industry standards.
- Worked closely with the design and backend teams to integrate UI elements with APIs.

Vice Head – Graphic Designing Team

Nov 2021 - Feb 2023

Business Management Club – Lahore Garrison University

- Heading the team of 8 Graphic Designing Members.
- Designed visually engaging graphics, including social media visuals, presentations, and infographics.
- Managed multiple design projects under tight deadlines, prioritizing tasks and maintaining attention to detail..

EDUCATION

Bachelor of Software Engineering, Lahore Garrison University	2019 – 2023
Intermediate (FSc. Pre- Engineering), Forman Christian College (A Chartered University)	2017 – 2019
Matriculation, Army Public School, MSG, Lahore	2015 – 2017

PROJECTS

Customizing iDempiere Open Source ERP System

Technologies: Java (Core), PostgreSQL, Jasper Reports, Maven, OOP

Overview:

- Customized iDempiere ERP to meet the specific needs of various industries, including Shopify, real estate, e-commerce, and textiles.
- Leveraged Java and PostgreSQL to enhance system functionality and performance.
- Utilized Jasper Reports for data visualization and reporting.
- Implemented Object-Oriented Programming (OOP) principles for scalable and maintainable code.

My App

Technologies: React JS, Bootstrap, Redux, Firebase, Axios, Google Maps

Key Features:

- User authentication with social media login (Google & Facebook).
- Locate nearby shops within a 15 KM range.
- Pin current location on Google Maps.
- Access multiple branches of a single shop.
- Book appointments and create orders.
- Chat functionality between users and vendors.
- Notifications for order updates and reminders for appointments.

Final Year Project: Missing Finder

Technology: React JS, Bootstrap, Firebase

Key Features:

- Enables police to upload records of found items (e.g., vehicles, mobile phones) with details and photos for public identification.
- Provides families with online access to information regarding arrested individuals.
- Allows users to file FIRs remotely by submitting incident details, minimizing the need for in-person visits to police stations.
- Enables users to track the processing status of their FIRs and receive timely updates.
- Offers a complaint system for reporting police misconduct or unprocessed applications.

ADDITIONAL INFORMATION

• **Technical Skills:**

Java, React.js, Node.js, Jasper Reports, PostgreSQL, MongoDB, Redux, Express JS ,Git ,Typescript, Firebase, Sass, Responsive Design, User Experience Design, Graphic Designing, MS Office & Soft Skills, Supreme Leadership, Excellent Communication.

• **Certifications:**

Meta Front-End Developer Professional Certification.	(Coursera/ Oct 23 - Feb 24)
Basic React	(Coursera/ Dec 23 - Jan 24)
Advance React	(Coursera/ Jan 24- Feb 24)
Foundation of User Experience (UX) Design	(Coursera / Dec 20 –Jan 21)

• **Tools:**

VS Code, Eclipse, pg. Admin, TIBCO Jaspersoft Studio, Postman, GitHub,Vercel, Linux.

• **Languages:**

English, Urdu, Punjabi.
